HOTEL & VILLAS

WEDDINGS AT SENDERO HOTEL & VILLAS

At Sendero, weddings unfold with a sense of ease held between jungle and ocean, where time softens and connection comes forward.

The property brings together boutique hotel rooms and private villas, allowing guests to stay close, move freely, and share the experience as one. Just steps from Playa Guiones and bordered by a protected reserve, Sendero offers a setting that feels both intimate and expansive.

Well suited for full or partial buyouts, weddings here are not defined by a single moment, but by the rhythm of the days surrounding it.

A Wedding Getaway, Gently Structured

In partnership with Weddings Nosara, each celebration is shaped with intention. Events extend across the weekend, allowing space for connection to unfold organically. Evenings gather around shared tables, mornings begin slowly, and transitions feel seamless rather than scheduled.

From welcome dinners to farewell brunches, every touchpoint is designed to feel considered, without ever feeling over-orchestrated.

Staying Together

Sendero is designed for groups to remain connected while still offering moments of privacy. Private villas open into generous living spaces, pools, and outdoor areas, ideal for small gatherings or quiet time between events. Jungle Rooms and Suites sit along the edge of the reserve, immersed in greenery, while hotel rooms are positioned close to shared spaces, creating an easy sense of movement across the property.

Spaces That Adapt

Rather than formal venues, Sendero offers spaces that shift naturally with each moment of the celebration.

Sendero Kitchen becomes a place to gather. It lends itself to long dinners, welcome evenings, and celebrations that feel more like shared meals than staged events.

The Villas Lobby & Bar, available with villa buyouts, offers a more intimate setting for pre-dinner cocktails or relaxed gatherings as the evening unfolds.

Within the Villas, private dining experiences bring a quieter, more personal layer to the getaway, ideal for smaller groups or moments that call for something more intimate.

Our Fitness Studio transforms easily for movement, ceremony, or reflection whether through a morning yoga session or a simple, grounded exchange of vows.

Thoughtful Support, Quietly Delivered

Behind each wedding is a team focused on making the experience feel effortless. From arrival logistics to food and beverage programming, from wellness experiences to beach setups and off-site planning, every detail is handled with care. The intention is not to over-structure, but to support.

A Flexible Approach

Sendero accommodates a range of wedding formats, from villa-only buyouts to full property experiences, or a combination of both.

Minimum stay is typically three nights, allowing the celebration to extend beyond a single day. Each configuration is shaped in close collaboration with couples and planners, ensuring the experience aligns with both the group and the setting.
